

Since our founding in 1984, Dubin Clark has consistently partnered with outstanding management teams in building world-class businesses. Our success speaks for itself and our formula is simple – it's about people. Through more than 100 acquisitions over 33+ years, we owe significant gratitude to all our partners who have helped make us successful.

We are long-term investors, dedicated to creating value by helping our companies grow. We do this through a coordinated approach that includes providing the capital necessary to support internal growth, completing complementary add-on acquisitions to build market position, and helping to develop new strategies for the future while protecting the independence, culture and values that made the company successful in the first place.

## overview

### Teaming with Management

Dubin Clark strongly believes in the autonomy of the management team. We are not involved in the day-to-day operations of our companies; rather, management maintains operational control. We work closely with management to help achieve mutually-agreed-upon goals and objectives for the business. Significant equity participation for company senior management is assured in every transaction so that a strong partnership is developed and together, we can share in future gains. The team effort that exists within Dubin Clark itself extends to the way that the firm interacts with the management teams of its portfolio companies.

### Adding Value

A key to the success of Dubin Clark's investment strategy is its ability to recognize inherent value in a company and, in conjunction with management, create a plan to realize it. Dubin Clark has assembled a team of professionals with a proven track record of designing and implementing effective strategies and operating plans. Dubin Clark also offers its network of business executives as a resource to the management teams of its portfolio companies. These retired CEOs have proven to be a valuable asset for those running day-to-day operations.

### Closing with Confidence

Dubin Clark respects the confidentiality of information provided to us. We have a long track record of successfully consummating acquisitions with minimum disruption to the business. As a result, if you ask professional intermediaries throughout the Country to identify the top middle-market acquisition firms they prefer introducing to sellers, Dubin Clark will be on most lists. We have worked hard for more than three decades to earn this reputation.

## philosophy

- Invest for the long term; ours is a philosophy of growth rather than breakup or near-term sale.
- Maintain each company's values, independence and culture; our goal is to build on what has already been achieved.
- Encourage continuity of management and leave day-to-day operational control with them. Provide management with a significant equity position; we work together as partners to create generous incentives and personal growth opportunities for all employees.
- Ensure additional capital is made available to support future growth.
- Complement a company's internal growth, when appropriate, with targeted add-on acquisitions.

## criteria

- **Manufacturers** of differentiated products, **service** businesses with unique business models and a strong growth trajectory; significant expertise and interest in **specialty rental** or rental-related companies.
- Platform company sales of \$8 to more than \$100 million and adjusted EBITDA of \$2 million or more (smaller for add-ons).
- Greater than 10% EBITDA margins.
- Minimal customer concentration.
- Businesses in transition (major capex requirements, plant relocations, management changes, etc., but not turnarounds).
- Headquartered in North America.
- Control positions desired.
